PROFESSIONAL SUMMARY

Senior Data Scientist and Technical Consultant with 11+ years of experience in experimental physics, analytics, and stakeholder engagement. Proven ability to lead cross-functional teams, deliver strategic insights, and drive transformation through data. Creator of pyTMat, a high-performance modeling tool, and experienced in regulated environments. Strong communicator with a track record of leadership and interdisciplinary collaboration. Ready to deliver impact in consulting engagements across energy, public sector, and advanced industries.

KEY SKILLS

- 💠 Strategic Analysis & Problem Solving
- 💠 Data Science & Machine Learning (Python, Rust, SQL)
- 💠 Stakeholder Engagement & Communication
- 💠 Project Leadership & Agile Collaboration
- 💠 Technical Consulting & Product Development
- 💠 Scientific Computing & Visualization

SELECTED ACHIEVEMENTS

- 💠 Developed pyTMat, a high-performance optical modeling tool used in device analytics.
- 💠 Led design and build of ultrafast spectroscopy lab; automated data pipelines and delivered reproducible workflows.
- 💠 Consulted for biomedical startup; improved sensor design accuracy by 25%.
- 💠 Chaired Faculty of Science Early Career Network; supervised 10+ students across disciplines.

EDUCATION

- 💠 PhD, Materials Science – University of Melbourne
- 💠 BSc (Hons), Chemistry – University of Melbourne
- 💠 BSc, Chemistry / Mathematical Physics / Political Science – University of Melbourne

CERTIFICATIONS

- 💠 Google Advanced Data Analytics Certificate
- 💠 Ubuntu Linux Professional Certificate

PUBLICATIONS & PORTFOLIO

- 💠 17+ peer-reviewed publications | 1000+ citations
